MOUNTED TRANSFER CARTS

TRANSFERRING BATTERIES WITH SACKETT TRANSFER CARTS PROVIDES SAFE, EFFICIENT TRANSPORTATION OF YOUR FORK LIFT BATTERIES.

Whether you are utilizing opportunity charging, or conventional charging these durable carts allow batteries to be removed quickly from forklifts for charging, servicing or watering. Ideal for situations where 5-20 batteries are moved per day, these heavy duty transfer carts are available in several models and widths.

Sackett has transfer cart solutions that save you time – and money, while keeping your business moving.

Model HFT is a heavy duty transfer cart that is used with a fork lift, and is a great back-up unit for man-on-board systems. This transfer cart is great for situations where you may need a back-up unit due to Preventative Maintenance, Service or Repairs.

Model HPT is a heavy duty pallet jack style transfer cart, which can be bolted onto a pallet jack, or ordered with a drive under base.

Model HPT-DL is a dual level roller bed transfer cart that accomodates both sit down and reach truck batteries.

Model HPT-PL is the most versatile option for accomodating trucks with a variety of roller height dimensions.
